Dear All,

My new project "Hair" has been selected for the "Christmas Palm" exhibition featuring 81 international artists and seven different locations all over the city of Berlin. In this international group exhibition curated by Marcin Kowalik you will see my newest work "Hair" in form of photography, drawings and installation.

I will be at the Freies Museum Berlin at the opening. My work will be displayed on the first floor, directly by the entrance.

I look forward to seeing all of you there.
